

Minor Review of Hamilton Lake Domain Management Plan (Reserves Act 1977)

The Parks and Gardens Unit of Hamilton City Council has prepared a Minor Review of the Hamilton Lake Domain Management Plan as required under the Reserves Act 1977.

The minor review has been developed to incorporate an environmental management plan to recognise measures to reduce any potential risk arising from the historic arsenic residue within the lake bed sediments.

As well as the incorporation of an environmental management plan the minor review also proposes other necessary minor amendments so that the plan is up-to-date. This includes amendments such as updating references to documents and legislation relevant to the plan.

Members of the public and other interested parties are invited to make submissions to the changes within the draft reviewed management plan.
