Waste Management Plan – Completion Checklist

Materials	Comments	What happens to the resources?	Recycled Volume (to date)	Waste Volume (to date)
Clay/Soil/Sawdust Bin	8.6m ³ of unsuitable material exported from site, to be used by Schick's for another project.	When bin gets full, it will be taken to a big container near the wormeries by students, to be kept until the classroom is built	58.2m ³	Nil
Timber Bin	Stockpiled on site.	Stockpiling of Macrocapa timber products now underway. Stacked on a pallet and covered to keep material dry. Important Note: Some material is being re-used on the exterior cladding following an Earth Brick Wall investigation. In other words... it's being recycled to the same project!	2.1m ³ (Approx)	Nil
Paper / Cardboard Bin	Seventh bin now emptied. 75% recycled. 4 domestic sized rubbish bags taken to landfill to date.	Paper and Cardboard regularly recycled, using both recycling depot, and weekly domestic collections.	5.80m ³	1.40m ³
Compost / Fruit / Vege Bin	No use since the previous report.	To be collected every third day and put in wormeries by students.	10 litres (Approx)	Nil
Landfill Bucket	Not required to date.	Each week this bucket will be taken to the school's landfill.	N/A	N/A
Packaging Plastic	Fifth bin now emptied. 69% recycled. 2.5 domestic sized rubbish bags taken to landfill.	Paper and Cardboard regularly recycled, using both recycling depot, and weekly domestic collections.	1.80m ³	1.00m ³
Concrete Bin	Not currently required. Old fence post foundations exported to Schick's holding site for recycling into roading or similar material.	Stored in a large container/area near the wormeries.	7.80m ³	Nil
Recycling Bin	Currently used.	Every Tuesday all the recycling will be taken on to the side of the road which will be collected by the City Council.	1.10m ³	Nil
Steel, Copper, Metal & Iron Bin	Old galvanised fence posts removed for recycling in to "new" fence posts by landscaper.	Will be kept in a large bin to be sold for recycling.	17.1kg (incl fence posts)	Nil
